"Club" price is set (for the first round) at 50 percent of "retail" price. Items without prices are either partnered with other items, or I couldn't come up with a suitable price in the first go-round. All portables will have at least one charger (mobile or 117Vac) with them.

Bruce indicated that anything the club could use would be donated to the club and taken out of the listing before the sale commences.

Discussion at the club meeting to remove items prior to the list is posted. All sales final unless the item is defective.
